<p><u>Title of presentation</u></p> <p>How dietitians around the globe and in Europe are responding to the challenges ahead</p>
<p><u>1. Brief description/abstract for the content of the presentation. 150 words maximum</u></p> <p><u>Introduction / Objectives / Methodology / Results / Conclusion</u></p> <p>Introduction: Nutrition, historically on the sidelines in clinical and public health care, now finds its self on the world center stage. In 2015, the World Health Organization declared this the decade of Action on Nutrition, in 2016 the United Nations revealed the new Sustainable Development Goals of which 12 out of 17 need good nutrition in order to be met. We are living the future where nutrition is at the forefront of health care and public health initiatives.</p> <p>Objectives: The objectives of this presentation are to discuss 1) How are we, the dietitians of the world, ae going to step up to the challenges of our global population. 2) Skills, knowledge and work force capacity to meet the public health, community and clinic needs of our populations. 3) Standardizing practice globally so we can we screen and diagnose malnutrition in a valid and reliable way regardless of environment or country.</p> <p>Results/conclusion: These issues and many others are facing our profession like never before in history this session will address these questions and explore potential solutions.</p>
<p><u>2. Please give two to three key references which can be used to inform future work:</u></p> <p>http://www.undp.org/content/dam/undp/library/corporate/brochure/SDGs_Booklet_Web_En.pdf</p> <p>https://www.globalnutritionreport.org/files/2016/06/GNR-Event-Toolkit_June-13.pdf</p> <p>http://jandonline.org/article/S2212-2672(15)00618-8/pdf</p>

3. Please identify up to three specific outcomes that dietitians and participants will take away to inform their future practice.

- 1) Aware of global issues facing dietitian community
- 2) Aware of the new Academy of Nutrition and Dietetics strategic plan
- 3) Increase thoughts on how dietitians can collaboratively rise to the challenges facing the global
