
BIOGRAPHY

Name & Institute

Paulina Nowicka, Uppsala University

Biography

Faculty Professor in Food Studies, Nutrition and Dietetics, especially Communication of Dietetics. Registered Dietician. Has conducted research on obesity treatment for the last 2 decades and currently leads several multidisciplinary projects on childhood obesity with focus on interventions in clinical settings. One of these is EU Horizon 2020 project STOP: Science and Technology in Obesity Policy where she leads the work package Health Care that focuses on development of effective interventions in young age using parent-only approach combined with mobile health in three countries: Spain, Rumania and Sweden.
