BIOGRAPHY

Name & Institute

Dr. Paul Chadwick

Associate Professor and Deputy Director, Centre for Behaviour Change, University College London

Biography

Dr. Paul Chadwick is Associate Professor and Deputy Director of the world-leading UCL Centre for Behavior Change. His research interests are in the use of behaviour change frameworks to develop and evaluate behavioural interventions to improve health and wellbeing in populations with chronic disease, as well as community interventions to prevent chronic disease such as diabetes prevention and obesity management. Dr. Chadwick has been at the forefront of research into behavior change interventions for childhood obesity for many years, and have been involved with the development of several trials to establish the feasibility, efficacy, effectiveness and impact at scale of community-based child obesity interventions.
