Title

Where ESPEN and EFAD meet: interactive discussion

Abstract

Clinical nutrition is interprofessional, requiring experience and expertise from different healthcare professionals. In this session, ESPEN and EFAD collaborations will be discussed, with special focus on the implementation of the GLIM criteria for malnutrition diagnosis, and nutrition guidelines.

Key messages

- Multi- and interdisciplinary collaboration is key to implementing diagnosing criteria for malnutrition in daily practice, as part of the nutrition care process.
- Dietitians have a key role in improving utilization of and adherence to evidence based nutrition guidelines.
